Hart Community Association

Help wanted! We are interested in the development and increased programming for children, youth and adults. We are looking for interested program

leaders and will offer an honorarium for your efforts. This could be a rewarding experience for qualified student leaders seeking to develop their skills and build their resume.

We are looking for enthusiastic volunteers to lead recreational programming for children and adults. We are interested in engaging residents in the Hart area to become involved with our association, volunteering for special events, activities etc.

We welcome new members and volunteers to join us in our efforts to provide accessible, quality recreational programming for residents of the Hart. As well, we are always looking for more volunteers to assist us with our beautification efforts.
